

SUSSEX COMPLIANCE TG — RATE CARD

Effective from September 2026

About Your Lead Auditor

Teresa Girasoli MSc AMIChemE

Qualified ISO 9001 Lead Auditor & ISO 14001 Internal Auditor | Chemical Engineer

Sussex Compliance is led by Teresa Girasoli MSc AMIChemE, a chemical engineer who has spent eight years auditing management systems from the inside. She has passed the CQI and IRCA certified ISO 9001 Lead Auditor course and is a trained ISO 14001 internal auditor. Her experience includes around 200 hours as lead auditor on first- and second-party audits across both standards: internal audits and supplier audits. She spent five and a half years as Quality Engineer at fuel-cell manufacturer Ceres Power and two as Quality and Development Manager at passive fire protection specialist FSi, where she ran the quality management system. She has implemented ISO 9001:2015 and ISO 14001:2015 in industry, so when she audits your system she knows what it takes to run one.

Key Credentials:

- MSc Chemical & Process Engineering
- Associate Member of IChemE
- ISO 9001 Lead Auditor course (CQI & IRCA certified, 2026)
- Qualified ISO 14001 Internal Auditor
- Integrated Management System Internal Auditor course, ISO 9001 & 14001 (EEF, 2018)
- ISO 9001 & 14001 Implementation
- PPAP & 8D
- Chemical Classification & SDS (CLP)
- CHEMUK 2026 BASA Panellist

Core Services

Service	Description & Scope
ISO 9001 / ISO 14001 Gap Analysis & Audit Rescue	Pre-surveillance gap analysis (including the ISO 14001:2026 transition), internal audit backlog clearance, QMS/EMS documentation review, corrective action support.
Supplier Quality & PPAP	Supplier and second-party audits, qualification programmes, incoming inspection optimisation, PPAP/APQP/8D support — the deepest specialism behind this consultancy.
GB MCL / UK REACH	Formulation-by-formulation review against mandatory classification lists. Identification of affected products, SDS and label update support.
Internal Audit & QM Cover	Ongoing internal audit programmes and interim quality manager cover for a vacant seat — see table below.
Process Engineering	Root-cause investigation of batch failures, yield issues and production bottlenecks, and process scale-up support. Engineering-led, not paperwork-driven.

Rate Card

Service	
Day on site (audit, gap analysis, mock audit, supplier audit)	£650
Founding-client rate — first three clients, written case study, booked by 31 Dec 2026	£495/day
Remote half-day	£375
ISO 9001 or ISO 14001 gap analysis (including the ISO 14001:2026 transition), one day, written report	£650
Audit rescue — two days, corrective actions written with you	£1,200
Supplier / second-party audit, one day, reported in your format	£650
GB MCL classification screen, up to five formulations, remote	£450
Internal audit cover — four site days a year + support between visits	£220/month
Internal audit cover plus — eight site days a year + management review + surveillance-week support	£435/month
Interim quality manager cover	From £1,100/wk (2 days) / £2,200/mo (4 days)
First conversation	Free 20-minute call

Founding-client rate: We are new as a company, not as auditors. The first three clients who let us write up the work as a case study pay £495 a day. Three places, until 31 December 2026.

Travel

Most consulting and audit preparation is delivered remotely via Microsoft Teams.

No travel charge in Sussex, Surrey, Kent, Hampshire or London. Elsewhere, 45p a mile from Brighton plus accommodation at cost where an overnight stay is needed — or start with a £375 remote half-day.
